Overall Length:

7.000 inches

Overall Diameter:

0.016 inches

Design Type:

Straight single antenna element

Special Features:

Antenna mounts by means of a 0.164-32unc-2a internal thread; lower portion of element above mounting nut is tightly helical coiled for whip action

Special Test Features:

Element to meet requirement of ultimate tensile strength 200, 000 psi

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
