**Overall Length:**

7.000 inches

**Overall Diameter:**

0.016 inches

**Design Type:**

Straight single antenna element

**Special Features:**

Antenna mounts by means of a 0.164-32unc-2a internal thread; lower portion of element above mounting nut is tightly helical coiled for whip action

**Special Test Features:**

Element to meet requirement of ultimate tensile strength 200, 000 psi

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A074a0
