Special Features:

Consists of bellows; housing; headers; motor; valves; ball bearings, permanent lubrication; air delivery 1.8 scfm at 51.7 psia and inlet pressure at 14.7 psia; operating temp minus 54 degrees c to plus 65 degrees c; continuous duty; elec req, 117 min and 203 maximum voltage, 60 hz, three phase; load current 1.9 amps max; speed, 3450 rpm at rated voltage and compressor load; 12.750 in.Lg; 11.750 in.W; 6.130 in.H

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
