NSN 5985-01-100-6129

Directional Coupler - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5985-01-100-6129

Overall Length:
2.500 inches
Overall Height:
1.000 inches
Overall Width:
1.150 inches
Design Type:
Unidirectional
Unit Type:
Transmission line
Terminal Fitting Name:
Connector
Terminal Fitting Controlling Agency:
Trompeter electronics inc
Terminal Fitting Identifying Number:
Part no. PI-75
Terminal Fitting Usage Design:
Terminal Fitting Usage Design:
Terminal Fitting Usage Design: Main line
Terminal Fitting Usage Design: Main line Special Features:
Terminal Fitting Usage Design: Main line Special Features: Internal resistor 53.6 ohms porm 1 pct 2 watts
Terminal Fitting Usage Design: Main line Special Features: Internal resistor 53.6 ohms porm 1 pct 2 watts Shelf Life:
Terminal Fitting Usage Design: Main line Special Features: Internal resistor 53.6 ohms porm 1 pct 2 watts Shelf Life: N/a
Terminal Fitting Usage Design: Main line Special Features: Internal resistor 53.6 ohms porm 1 pct 2 watts Shelf Life: N/a Unit Of Measure:
Terminal Fitting Usage Design: Main line Special Features: Internal resistor 53.6 ohms porm 1 pct 2 watts Shelf Life: N/a Unit Of Measure:
Terminal Fitting Usage Design: Main line Special Features: Internal resistor 53.6 ohms porm 1 pct 2 watts Shelf Life: N/a Unit Of Measure: Demilitarization:
Terminal Fitting Usage Design: Main line Special Features: Internal resistor 53.6 ohms porm 1 pct 2 watts Shelf Life: N/a Unit Of Measure: Demilitarization: Yes - demil/mli
