Radio Frequency Circulator - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5985-01-101-5760

Overall Length:

1.000 inches

Overall Height:

0.500 inches

Overall Width:

1.000 inches

Frequency Range Rating:

+2.0/+4.0 gigahertz

Insertion Loss In Decibels:

0.5

Trade Designation:

Connector, sma, female

Controlling Agency:

Gte sylvania

Connector Quantity:

3

Connection Method:

Connector receptacle

Special Features:

Vswr 1.30: 1; isolation 18.0 db min; operating temperature range minus 10.0 to plus 80.0 degrees c; steel body; bright nickel plated

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

T224-j
