**Overall Length:**

6.750 inches

**Overall Height:**

3.940 inches

**Overall Width:**

3.940 inches

**Switch Type:**

Transfer

**Operating Temperature Range:**

-40.0/+100.0 degrees celsius

**Insertion Loss In Decibels:**

0.05 single

**Rf Power Handling Capability:**

75.0 watts peak 1st

**Minimum Crosstalk Rating In Decibels:**

70.0 single

**Actuator Operating Method:**

Motor

**Actuator Current Type And Rating In Amps:**

1.5 dc

**Actuator Voltage In Volts:**

28.0

**Switching Time:**

150.0 milliseconds

**Switch Return Mechanism Type:**

Fail-safe

**Waveguide Flange Type:**

Choke

**Rf Maximum Voltage Rating:**

110.0 volts peak

**Coupling Position Quantity:**

2

**Features Provided:**

Open off circuit termination

**Flange Connecting Facility And Quantity:**

4 threaded hole

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A158a0
