Overall Length:

6.750 inches

Overall Height:

3.940 inches

Overall Width:

3.940 inches

Switch Type:

Transfer

Operating Temperature Range:

-40.0/+100.0 degrees celsius

Insertion Loss In Decibels:

0.05 single

Rf Power Handling Capability:

75.0 watts peak 1st

Minimum Crosstalk Rating In Decibels:

70.0 single

Actuator Operating Method:

Motor

Actuator Current Type And Rating In Amps:

1.5 dc

Actuator Voltage In Volts:

28.0

Switching Time:

150.0 milliseconds

Switch Return Mechanism Type:

Fail-safe

Waveguide Flange Type:

Choke

Rf Maximum Voltage Rating:

110.0 volts peak

Coupling Position Quantity:

2

Features Provided:

Open off circuit termination

Flange Connecting Facility And Quantity:

4 threaded hole

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A158a0
