Application Design:

Transmission line

Body Material:

Metal

Body Style:

Rectangular, terminal/terminals on opposite surfaces

Overall Length:

5.187 inches

Overall Height:

1.625 inches

Overall Width:

1.625 inches

Voltage Standing Wave Ratio:

1.15

Power Rating:

25.0 watts average

Frequency Range:

Between 0.000 megahertz and 1000.000 megahertz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A20000
