Impedance Rating In Ohms:

51.0

End Application:

Converter, signal data cv-3399/byq

Termination Type:

Connection coaxial

Operating Position:

All positions

Cooling Method:

Self-cooled

Special Features:

One resistor, fixed film; nine contact, electrical pin; one connector, electrical, circular; one backshell, shorting cap

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19800
