## NSN 5985-01-192-2089

Variable Attenuator - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5985-01-192-2089

| Application Design:                      |
|--|
| Transmission line                        |
| Attenuation Variation Method:            |
| Continuous                               |
| Frequency Range:                         |
| Between 0.000 hertz and 21.500 gigahertz |
| Adjustment Device Type And Quantity:     |
| 3 solenoid                               |
| Fsc Application Data:                    |
| Communication equipment                  |
| Shelf Life:                              |
| N/a                                      |
| Unit Of Measure:                         |
|  |
| Demilitarization:                        |
| Yes - demil/mli                          |
| Fiia:                                    |
