Overall Length:

9.562 inches

Overall Height:

4.020 inches

Overall Width:

6.312 inches

End Application:

An/fps-117

Component Type And Quantity:

1 transformer

Special Features:

9major components: circuit card assembly 1; light emitting diode 3; enclosure 1; mtg configuration: 4 mtg holes 0.322 diameter on 4 corners; functional description: cycle monitor assembly which cycles and monitors lubricants to the azimuth drive in the pedestal assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
