Body Style:

Rectangular

Overall Length:

1.400 inches

Overall Width:

0.360 inches

Frequency Rating:

2.0 gigahertz single frequency operating and 20.0 gigahertz single frequency operating

Switch Type:

Nontransfer

Operating Temperature Range:

+0.0/+50.0 degrees celsius

End Application:

Antennas, waveguides, and related equipment

Insertion Loss In Decibels:

3.00 single

Coaxial Connector Series Designation:

Sma

Connector End Design:

Male

Rf Power Handling Capability:

0.1 watts average single

Minimum Crosstalk Rating In Decibels:

70.0 single

Switching Time:

0.08 microseconds

Switch Return Mechanism Type:

Fail-safe

Pole Quantity:

1

Throw Quantity:

1

Special Features:

Actuator operating method: solenoid

Terminal Type And Quantity:

3 solder stud and 2 receptacle, coaxial and 1 quick disconnect, male

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A158a0
