Overall Length:

8.300 inches

Overall Height:

1.650 inches

Overall Width:

3.200 inches

Operating Frequency:

Between 1773.0 megahertz and 1845.0 megahertz

Transmission Line Type:

Coaxial cable

Precious Material And Location:

Connector center conductor surfaces gold

Precious Material:

Gold

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T187-f
