Overall Length:

1.870 inches

Overall Height:

0.750 inches

Overall Width:

1.560 inches

Frequency Range Rating:

+1.763/+1.813 gigahertz

Insertion Loss In Decibels:

0.4

Trade Designation:

Sma female connector

Connector Quantity:

3

Connection Method:

Connector receptacle

Special Features:

Aluminum body; chemical film and paint; isolation 20.0 db; vswr 1.25: 1; temperature range minus 54.0 to plus 71.0 degrees c

Precious Material And Location:

Connector center conductor surfaces gold

Precious Material:

Gold

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T224-j
