Frequency Rating:

2.000 megahertz single antenna element and 14.000 megahertz single antenna element

End Application:

An/grc-20 (v) 1, 2, 3 communications

Radiation Pattern:

Omnidirectional single antenna element

Power Rating:

500.000 watts average single antenna element

Beam Scanning Method:

Fixed single antenna element

Design Type:

Wire array single antenna element

Terminal Type:

Screw single antenna element

Special Features:

Nvis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A074a0
