**Special Features:**

Length 2.544 inches ; height 2.544 inches ; width 0.750 ; two mounting holes 0.112-40 unc-2b times 0.312 inches deep; frequency 1 to 300 megahertz; tnc female connector 4 places; isolation 20 decibel ; phase balance 4 degrees ; insertion loss 1.0 decibel ; voltage standing wave ratio 1.5 ; operating temperature minus 34 to plus 51 degrees celsius; operating altitude sea level to 2, 000 feet

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A512n0
