Special Features:

Length 2.300 inches ; height 1.720 inches; width 0.890 inches ; tnc female connectors 3 places; three mounting holes 0.160 inches diameter; frequency range 1 to 100 megahertz; impedance 50 ohms; coupling minus 3 decibels; insertion loss 0.5 decibels ; phase balance 2 degrees; voltage standing wave ratio 1.3 ; power 3 watts; operating temperature minus 54 to plus 85 degrees celsius; isolation 30 decibels

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A512n0
