Application Design:

Transmission line

Body Material:

Nickel alloy

Body Style:

Rectangular, terminal/terminals on opposite surfaces

Body Surface Treatment:

Gold plate over nickel

Overall Length:

0.712 inches

Overall Height:

0.245 inches

Overall Width:

0.126 inches

Body Length:

0.532 inches

Voltage Standing Wave Ratio:

1.70

Input Impedance Rating In Ohms:

50.0

Output Impedance Rating In Ohms:

50.0

Rf Signal Attenuation In Decibels:

20.4

Terminal Type And Quantity:

2 pin

Precious Material And Location:

Lead surfaces gold and case surfaces gold

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A20000
