**Body Style:**

Rectangular

**Overall Length:**

1.840 inches

**Overall Height:**

1.840 inches

**Overall Width:**

0.750 inches

**Frequency Rating:**

0.9 gigahertz single frequency operating and 13.0 gigahertz single frequency operating

**Unthreaded Mounting Hole Diameter:**

0.120 inches

**Switch Type:**

Nontransfer

**Operating Temperature Range:**

-55.0/+85.0 degrees celsius

**Voltage Standing Wave Ratio:**

2.00 single

**Insertion Loss In Decibels:**

2.20 single

**Coaxial Connector Series Designation:**

Sma

**Connector End Design:**

Female

**Rf Power Handling Capability:**

5.0 watts average single

**Minimum Crosstalk Rating In Decibels:**

60.0 single

**Actuator Operating Method:**

Solid state

**Switching Time:**

0.1 milliseconds

**Pole Quantity:**

1

**Throw Quantity:**

2

**Rf Maximum Voltage Rating:**

15.0 volts peak

**Coupling Position Quantity:**

4

**Mounting Facility Type And Quantity:**

3 unthreaded hole

**Mounting Facility Pattern:**

Obtuse triangle single mounting facility pattern

**Terminal Type And Quantity:**

2 turret and 1 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A158a0
