| Cooling System Coolant Flow Rate:                  |
|--|
| 2.0 gallons per minute                             |
| Overall Length:                                    |
| Between 17.540 inches and 17.660 inches            |
| Body Length:                                       |
| Between 15.940 inches and 16.060 inches            |
| Body Width:  |
| 5.250 inches                                       |
| Body Height:                                       |
| 4.000 inches                                       |
| Frequency Range Rating:                            |
| +3.100/+3.500 gigahertz                            |
| Voltage Standing Wave Ratio:                       |
| 1.10   |
| Power Rating:                                      |
| 380.000 kilowatts peak and 3.200 kilowatts average |
| Termination Type:                                  |
| Waveguide flange                                   |
| Internal Operating Pressure:                       |
| 15.0 pounds per square inch gage                   |
| Coolant Chamber Pressure:                          |
| 160.0 pounds per square inch gage                  |
| Cooling Method:                                    |
| Forced liquid                                      |
| Style Designator:                                  |
| Waveguide mounted                                  |
| Shelf Life:  |
| N/a  |
| Unit Of Measure:                                   |
|  |
| Demilitarization:                                  |
| No   |
