**Application Design:**

Transmission line

**Overall Length:**

5.600 inches

**Overall Height:**

1.700 inches

**Overall Width:**

2.900 inches

**End Application:**

Wsd: command control and communication sys 427m

**Voltage Standing Wave Ratio:**

1.90

**Power Rating:**

1.0 watts average and 100.0 watts peak

**Insertion Loss At Minimum Attenuation In Maximum Decibels:**

0.6

**Overall Attenuation Range In Decibels:**

+0.0/+110.0

**Attenuation Variation Method:**

Stepped

**Step Position Quantity:**

11

**Attenuation Per Step In Decibels:**

10.0

**Frequency Range:**

Between 0.000 gigahertz and 18.000 gigahertz

**Overall Attenuation Accuracy In Decibels:**

-3.00/+3.00

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A223a0
