Overall Length:

0.191 inches

Impedance Rating In Ohms:

2000.0

Overall Diameter:

0.455 inches

Fragility Factor:

Moderately delicate

Coaxial Connector Series Designation:

Bnc

Connector End Design:

Female

Power Rating:

0.125 watts average

Termination Type:

Connection coaxial

Operating Position:

All positions

Rf Connector Changing Feature:

Not included

Cooling Method:

Self-cooled

Special Features:

Body and coupling sleeves are brass, nickel plated; center and intermediate contacts are beryllium copper, gold plated; polarized connection

Precious Material And Location:

Contact surface gold

Precious Material:

Gold

Style Designator:

Coaxial mounted

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19800
