Overall Length:

0.406 inches

Overall Diameter:

0.400 inches

Special Features:

Steel; gold plated; 0.375 porm 0.06 in. Lg leads; 1 input, 1 ground, 2 output wire leads for two way power division; 30 db min isolation; amplitude balance: 0.2 db max; 2 degrees maximum phase balance; load power dissipation: 50 mw max; hermetic seal; thermal shock, vibration, shock and barometric pressure resistant; operating temp range: -54 to 100 degrees c

Unpackaged Unit Weight:

0.688 pounds

Precious Material And Location:

Case surfaces gold

Terminal Type And Quantity:

8 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A512n0
