Overall Length:

0.875 inches

Outside Diameter:

0.200 inches

Conductor Size:

16 awg

Characteristic Impedance In Ohms:

50.0

Conductor Quantity:

3

Conductor Material:

Brass

Operating Voltage Rating:

335.0 volts

Outer Conductor:

Not included

Terminal Fitting:

Included

Accommodated Conductor Type:

Coaxial

Conductor Surface Treatment:

Gold plated

Tubing Outside Diameter:

0.200 inches

Center To Center Distance Between Conductors:

Between 0.843 inches and 0.875 inches

Precious Material And Location:

Contact surfaces gold

Precious Material:

Gold

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T224-e
