**Overall Length:**

0.875 inches

**Outside Diameter:**

0.200 inches

**Conductor Size:**

16 awg

**Characteristic Impedance In Ohms:**

50.0

**Conductor Quantity:**

3

**Conductor Material:**

Brass

**Operating Voltage Rating:**

335.0 volts

**Outer Conductor:**

Not included

**Terminal Fitting:**

Included

**Accommodated Conductor Type:**

Coaxial

**Conductor Surface Treatment:**

Gold plated

**Tubing Outside Diameter:**

0.200 inches

**Center To Center Distance Between Conductors:**

Between 0.843 inches and 0.875 inches

**Precious Material And Location:**

Contact surfaces gold

**Precious Material:**

Gold

**Fsc Application Data:**

Antennas, waveguides, and related equipment

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T224-e
