**End Application:**

Antenna group oe-338/tpq-3 (v)

**General Description:**

50 in.Lg; 18 in.W; 17 in.H; converts beam steering commands from the computer to phase shifter bias currents that shift the rf signals in order to steer the antenna beam in azimuth

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23900
