Overall Length:

12.500 inches

Overall Height:

7.560 inches

Overall Width:

3.800 inches

Current Type:

Dc

End Application:

Radio set, an/arc-21 (v)

Voltage Rating:

28.0 volts

Radio Frequency Rating:

Between 2.0 megahertz and 29.9 megahertz

Material And Location:

Aluminum body

Unpackaged Unit Weight:

8.000 ounces

Tuning Type:

Variable

Phase:

Single

Special Features:

Self cooled by free convection pressured for high altitude operation

Functional Description:

Provides automatic tuning of the grounded tube, grounded wire, and open tube and open wire antennas currently used on aircraft

Purchase Description Identification:

95105-622-8113-001

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T389-c
