Overall Length:

1.210 inches

Overall Height:

0.850 inches

Overall Width:

0.850 inches

Frequency Range Rating:

+8.0/+18.0 gigahertz

Trade Designation:

Connector, coaxial

Controlling Agency:

American electronic laboratories, inc

Connector Quantity:

2

Special Features:

Max vswr 1.50: 1; peak power 0.5 kw; avg power 3.0 w; insertion loss 0.6 db max; isolation 14.0 db min; impedance 50.0 ohms; cold finished steel; bright nickel plating

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T224-j
