**End Application:**

An/tsc-107 and/or an/tyq-101a cdls

**Accessory Components And Quantity:**

T-bar, 1 ea; stowage bag, 1; ground spike, 1; soft ground stake, 12 ea; hammer, 1; guy reel assembly, 2 ea; tech. Manual; transit bag; antenna halyard

**Maximum Height:**

15.0 meters

**Nested Height:**

67.700 inches

**Load Rating:**

89.400 miles per hour

**Mast Construction:**

Telescopic

**Special Features:**

Glass/carbon fibre composition, lightweight, noncorroding, dent and bend resistant; carrymast, man portable, one man, ten minute erect and dismantle; low radar/ir signature; integral alignment device; repairable on site; can support hf wire, whip and grid dish antennas, public address speakers, lighting systems, surveillance and sensing equipment

**Material:**

Glass fiber

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A503w0
