End Application:

An/tsc-107 and/or an/tyq-101a cdls

Accessory Components And Quantity:

T-bar, 1 ea; stowage bag, 1; ground spike, 1; soft ground stake, 12 ea; hammer, 1; guy reel assembly, 2 ea; tech. Manual; transit bag; antenna halyard

Maximum Height:

15.0 meters

Nested Height:

67.700 inches

Load Rating:

89.400 miles per hour

Mast Construction:

Telescopic

Special Features:

Glass/carbon fibre composition, lightweight, noncorroding, dent and bend resistant; carrymast, man portable, one man, ten minute erect and dismantle; low radar/ir signature; integral alignment device; repairable on site; can support hf wire, whip and grid dish antennas, public address speakers, lighting systems, surveillance and sensing equipment

Material:

Glass fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503w0
