Construction:

Telescopic

End Application:

5985-01-279-7942 antenna group

Maximum Height:

6.000 feet

Special Features:

One six ft telescoping mast assembly, three mast stake subassy, one line retainer, three crimp, three tensioning block

Material:

Any acceptable

Supplementary Features:

Anchor lines to be gathered together and wrapped end to end on closed mast, lines to be secured in place with tape

Surface Treatment:

Any acceptable

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T224-d
