**End Application:**

An/asc-107

**Unit Package Quantity:**

1

**Component Quantity:**

41

**Special Features:**

Tactical long range hf antenna, skywave communications; radiating element wires, kevlar cored copper braided split into two unequal lengths (220 & 280 feet; 50 foot coaxial cable, two load units, element connecting pieces, ground stakes; minimast = two non-conducting 10 foot sectional masts; all rapidly assembled and erected; no tools required; antenna may be erected in 3 configurations, antenna length may be varied depending on deployment space; all configurations rated for 1 kw continuous operation, all broad band, vswr no more than 2.0: 1 from 2 to 30 mhz

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**
