Body Style:

Cylindrical

Overall Length:

2.060 inches

Frequency Rating:

18.0 gigahertz single frequency operating

Overall Diameter:

2.060 inches

End Application:

Solar elec-opti network

Switching Time:

15.0 milliseconds

Criticality Code Justification:

Feat

Special Features:

Electrostatic discharge protection; ttl logic high; latching at 29 vdc and 20 deg.C.; indicator circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A158a0
