## NSN 5985-01-371-8914

Radio Frequency Transmission Line Switch - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5985-01-371-8914 **Body Style:** Rectangular **Overall Length:** 3.530 inches **Overall Height:** 2.800 inches **Overall Width:** 2.800 inches Frequency Rating: 18.0 gigahertz single frequency operating Switch Type: Transfer **End Application:** Solar elec-opti network **Coaxial Connector Series Designation:** Sma **Connector End Design:** Female **Actuator Operating Method:** Solid state **Switching Time:** 10.0 milliseconds Switch Return Mechanism Type: Latching **Coupling Position Quantity:** 1 **Mounting Facility Type And Quantity:** 4 unthreaded hole **Special Features:** Multiposition; impedance, 50 ohms; ttl logic low circuit; operating temp. Range, - 55 deg. C. To +85 deg.C.; 15 pin male d-subminiature connectors Material: Aluminum alloy 6061 body **Terminal Type And Quantity:** 5 quick disconnect, female Shelf Life: N/a **Unit Of Measure: Demilitarization:** 

**Fiig:** A158a0
