Wattage Rating:

150.000 watts

Material:

Aluminum

Surface Treatment:

Primer and paint

General Description:

Zinput and output vswr 1.2; output axial ratio maximum 0.75; insertion loss maximum 0.30; peak power handling 50kw; average power handling 150w; operating frequency min.16.0 max. 17.0; switch performance control voltage min. 22.0v max. 32.0v;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
