Overall Height:

105.000 feet

Frequency Rating:

6.500 megahertz single antenna element and 40.000 megahertz single antenna element

Electromagnetic Polarization Type:

Horizontal single antenna element

Radiation Pattern:

Omnidirectional single antenna element

Power Rating:

25.000 kilowatts average single antenna element

Characteristic Impedance In Ohms:

50.0 single antenna element

Beam Scanning Method:

Rotating single antenna element

Design Type:

Dipole array single antenna element

Mounting Method:

Bolt

Power Gain In Decibels:

13.50 single antenna element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A074a0
