Overall Length:

6.000 inches

Overall Height:

0.880 inches

Overall Width:

0.880 inches

Frequency Range Rating:

+22.000/+33.000 gigahertz

Voltage Standing Wave Ratio:

1.02

Power Rating:

2.000 watts average

Termination Type:

Waveguide flange

Operating Position:

All positions

Cooling Method:

Self-cooled

Style Designator:

Waveguide mounted

Specification Data:

20418-es8704 manufacturers specification control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A19800
