Variable Attenuator - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5985-01-433-0247

Body Style:

Rectangular, terminals on one surface

Overall Length:

2.000 inches

Overall Height:

1.000 inches

End Application:

Pacer dawn

Insertion Loss At Minimum Attenuation In Maximum Decibels:

5.0

Attenuation Variation Method:

Stepped

Frequency Range:

Between 290.000 megahertz and 310.000 megahertz

Special Features:

Hybrid matched pair; 7 volts dc; 20 mw continuous rf input power; operating temperature, minus 54 d.C. To +95 deg.C; peak power, 1

watt

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

-

Fiig:

A223a0
