Application Design:

Transmission line

Body Material:

Any acceptable

Body Style:

Rectangular, terminal/terminals on opposite surfaces

Overall Length:

1.620 inches

Overall Height:

1.210 inches

Overall Width:

0.590 inches

Body Length:

1.120 inches

End Application:

2351-26080 j stars

Input Impedance Rating In Ohms:

50.0

Output Impedance Rating In Ohms:

50.0

Rf Signal Attenuation In Decibels:

31.0

Terminal Type And Quantity:

2 ferrule

Criticality Code Justification:

Feat

Special Features:

Attenuator, voltage controlled; esd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A20000
