Impedance Rating In Ohms:

50.0

Frequency Range Rating:

+0.000/+18.000 gigahertz

Connector End Design:

Male

Special Features:

Rated: 40 db

Functional Description:

Precision termination load (dummy load) used to calibrate the site master

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A19800
