Application Design:

Transmission line

Body Style:

Rectangular, terminal/terminals on opposite surfaces

Overall Length:

1.440 inches

Overall Height:

0.510 inches

Overall Width:

1.000 inches

End Application:

Electr. E/i fscm 26401

Rf Signal Attenuation In Decibels:

24.0

Terminal Type And Quantity:

2 connector

Precious Material And Location:

Terminals gold

Precious Material:

Gold

Specification Data:

26401-1133-2341-11 manufacturers source control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A20000
