Overall Length:

1.400 inches

Impedance Rating In Ohms:

75.0

Overall Diameter:

0.560 inches

Frequency Range Rating:

+0.000/+500.000 megahertz

End Application:

Multi mode ra

Voltage Standing Wave Ratio:

1.20

Power Rating:

1.000 watts average

Termination Type:

Connector and connector receptacle

Operating Position:

All positions

Cooling Method:

Self-cooled

Special Features:

Operating temp range minus 20 degrees to plus 100 degrees centigrade

Style Designator:

Coaxial mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19800
