**Body Style:**

Rectangular

**Overall Length:**

5.600 inches

**Overall Height:**

2.250 inches

**Overall Width:**

1.750 inches

**Switch Type:**

Transfer

**Insertion Loss In Decibels:**

0.05 single

**Rf Power Handling Capability:**

5.0 kilowatts peak single

**Minimum Crosstalk Rating In Decibels:**

70.0 single

**Actuator Operating Method:**

Motor

**Coupling Position Quantity:**

0

**Mounting Facility Type And Quantity:**

4 threaded hole

**Special Features:**

Freq. 5.85- 6.425 ghz life: 200, 000 operations, finish: satin black enamel, drive: latching genevano bounce, auxiliary switch operativswr less than 1.1

**Material:**

Aluminum alloy body

**Unpackaged Unit Weight:**

1.500 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A158a0
