Body Style:

Rectangular

Overall Length:

5.600 inches

Overall Height:

2.250 inches

Overall Width:

1.750 inches

Switch Type:

Transfer

Insertion Loss In Decibels:

0.05 single

Rf Power Handling Capability:

5.0 kilowatts peak single

Minimum Crosstalk Rating In Decibels:

70.0 single

Actuator Operating Method:

Motor

Coupling Position Quantity:

0

Mounting Facility Type And Quantity:

4 threaded hole

Special Features:

Freq. 5.85- 6.425 ghz life: 200, 000 operations, finish: satin black enamel, drive: latching genevano bounce, auxiliary switch operativswr less than 1.1

Material:

Aluminum alloy body

Unpackaged Unit Weight:

1.500 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A158a0
