Frequency Range Rating:

+47.0/+66.0 hertz

End Application:

Power supply unit automatic test equipment

Trade Designation:

Voltage isolation system

Controlling Agency:

Tektronix

Special Features:

power consumption 28 w; output impedance 50 ohm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T224-j
