Overall Length:

17.000 inches

Overall Height:

5.250 inches

Overall Width:

19.000 inches

End Application:

Matrix control unit, mcu-9c

Wattage Rating:

100.000 watts

Voltage In Volts And Current Type:

120.0 ac

Special Features:

Local control unit w/internal video display, keypad and control cables; two-way ascii data interface; provides local control and for an interface rs-232 or rs-422 to a control system or a computer; specific programming

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
