Overall Height:

21.000 inches

Overall Width:

36.000 inches

Frequency Rating:

118.000 megahertz all antennas and 144.000 megahertz all antennas

End Application:

Radio control, air/ground (rcag)

Coaxial Connector Series Designation:

N all antennas

Electromagnetic Polarization Type:

Right circular all antennas

Power Rating:

200.000 watts peak all antennas

Characteristic Impedance In Ohms:

50.0 all antennas

Design Type:

Circular array all antennas

Power Gain In Decibels:

1.50 all antennas

Special Features:

Environmental conditions: 100 mph wind with .5 inch radial ice

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
