Application Design:

Waveguide

Body Material:

Aluminum

Body Style:

Err-090

Overall Length:

1.970 inches

Coaxial Connector Series Designation:

Sma

Rf Signal Attenuation In Decibels:

6.0

Attenuation Accuracy In Decibels:

-0.30/+0.30

Terminal Type And Quantity:

1 connector

Special Features:

10 watts average, bi-directional; temperature range -55/+125 degrees c; male/female connectors

Precious Material And Location:

Contact plating gold

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A20000
