**End Application:**

Cn-235 transport aircraft

**Special Features:**

Flexible-twistable waveguide; cover flange, iridate finish; tubing material brass strip; tubing construction flexible-twistable-convolute wound; aluminum flange material; vinyl jacketing; temperature range -55/+125 degrees c

**Flexibility:**

Flexible single tubing segment

**Precious Material And Location:**

Silver-plated silver

**Precious Material:**

Silver

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A073a0
