End Application:

Cn-235 transport aircraft

Special Features:

Flexible-twistable waveguide; cover flange, iridate finish; tubing material brass strip; tubing construction flexible-twistable-convolute wound; aluminum flange material; vinyl jacketing; temperature range -55/+125 degrees c

Flexibility:

Flexible single tubing segment

Precious Material And Location:

Silver-plated silver

Precious Material:

Silver

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A073a0
